ialdownloadfree Download Welcome
to BOSU, the world's first virtual
multitasking interface. BOSU
allowed to use as many computing
resources as you like including
sensors, animations, games, and
more. Features: - Control keyboard,
mouse and key bindings - Use
multiple monitors - Split your
screens into lots of windows -
Overlay windows - Project windows
on different physical screens -

Control your windows with different switching controls – So much more!

BOSU has taken multitasking interface to new heights. You can now enjoy games, watching videos and even chat with other BOSU users, at the same time! * Coming Soon* Please continue to check back for even more exciting news and features coming soon! BOSU is sold as freeware, however, you can purchase additional features within the app to enhance its experience. To activate additional features, please purchase a “Pro” or “Slim” version from within the app.
